

The Second International Workshop on

## **Aspect-Based and Model-Based Separation of Concerns in Software Systems**

<http://www.open.ou.nl/ABMB/>

**July 10th, Bilbao, Spain**

**In collaboration with the European Conference on Model Driven Architecture - Foundations and Applications**

<http://www.ecmda-fa.org/>

Modern modelling techniques that often use graphical notations have difficulty localizing concerns involving global constraints. Post-object programming technologies try to overcome such restrictions. Model-Driven (MD) and Aspect-Oriented (AO) approaches are two complementary and competing solutions for the problem of separation and combination of aspects in the area of software development and maintenance.

There are several areas where AO and MD approaches may play together or compete. All these areas are in the scope of the present workshop. The identification of these areas of competition and cooperation is currently a subject of high interest.

We are interested in submissions on all topics relating the model-driven and aspect-oriented software development and ask for papers of minimum 4 pages and maximum 20 pages in the ENTCS format (<http://www.entcs.org/>). Please send the pdf-version of your submissions to Ella.Roubtsova@ou.nl. Each paper will be reviewed by three members of the program committee. Accepted papers will be included in the workshop reader. We are currently negotiating with the editor of the Electronic Notes in Theoretical Computer Science (ENTCS) to consider the accepted papers for publication. The papers of the first workshop ABMB2005 have been published as a volume of ENTCS.

### **Important dates:**

Submission of papers: May 1th 2006

Notification: June 5, 2006

Camera-ready copies of accepted papers June 12th, 2006

Workshop: July 10th , 2006

### Co-organizers

Mehmet Akşit, University of Twente, the Netherlands, [M.Aksit@ewi.utwente.nl](mailto:M.Aksit@ewi.utwente.nl)

Tzilla Elrad, Illinois Institute of Technology, USA, [Elrad@iit.edu](mailto:Elrad@iit.edu)

Ella Roubtsova, Open University of the Netherlands, [Ella.Roubtsova@ou.nl](mailto:Ella.Roubtsova@ou.nl)

### Programme committee

Mehmet Akşit, University of Twente, the Netherlands [M.Aksit@ewi.utwente.nl](mailto:M.Aksit@ewi.utwente.nl)

Pierre Cointe , Ecole des Mines, France [Pierre.Cointe@emn.fr](mailto:Pierre.Cointe@emn.fr)

Siobhán Clarke, Trinity College, Dublin, Ireland [siobhan.clarke@cs.tcd.ie](mailto:siobhan.clarke@cs.tcd.ie)

Tzilla Elrad , Illinois Institute of Technology, USA [Elrad@iit.edu](mailto:Elrad@iit.edu)

Jeff Gray, University of Alabama at Birmingham, USA [gray@cis.uab.edu](mailto:gray@cis.uab.edu)

Reiko Heckel, University of Leicester, UK [reiko@mcs.le.ac.uk](mailto:reiko@mcs.le.ac.uk)

Ruurd Kuiper, TU Eindhoven, The Netherlands [wsinruur@win.tue.nl](mailto:wsinruur@win.tue.nl)

Tommi Mikkonen, Tampere University of Technology, Finland [tjm@cs.tut.fi](mailto:tjm@cs.tut.fi)

Awais Rashid, Lancaster University Lancaster UK [marash@comp.lancs.ac.uk](mailto:marash@comp.lancs.ac.uk)

Ella Roubtsova, Open University , the Netherlands [Ella.Roubtsova@ou.nl](mailto:Ella.Roubtsova@ou.nl)

Dominik Stein, University of Essen, Germany [dstein@cs.uni-essen.de](mailto:dstein@cs.uni-essen.de)

Gerd Wagner, Brandenburg University of Technology at Cottbus, Germany. [G.Wagner@tu-cottbus.de](mailto:G.Wagner@tu-cottbus.de)

Takuo Watanabe, Tokyo Institute of Technology, Tokyo, Japan. [takuo@acm.org](mailto:takuo@acm.org)
